**APPENDIX B****Death Benefit Examples**

The investment results shown in the examples below are hypothetical and are not representative of past or future performance. Actual investment results may be more or less than those shown and will depend upon a number of factors, including the investment allocation made by a contract Owner and the investment experience of the Investment Options. The examples below do not reflect the deduction of fees and expenses, surrender charges or income taxes and tax penalties. All amounts are rounded to the nearest dollar.

**Example 1**

Assume your contract has one Annuitant who is age 65 and you made a \$100,000 Purchase Payment on the contract date. The initial Return of Purchase Payment death benefit is \$100,000. You take a withdrawal in the first Contract Year equal to your GWB Amount of \$5,000 ( $\$100,000 \times 5\% = \$5,000$ ). The Return of Purchase Payment death benefit gets reduced to \$95,000. Later in that same Contract Year, you take an additional withdrawal of \$4,500 when your Contract Value is \$90,000. The Return of Purchase Payment death benefit is reduced to \$90,250 ( $\$95,000 - \$95,000 \times (\$4,500 / \$90,000)$ ).

**Example 2**

Assume your contract has one Annuitant who is age 65 and you made a \$100,000 Purchase Payment on the contract date. The initial Return of Purchase Payment death benefit is \$100,000. You take a withdrawal of \$6,000 when your Contract Value is \$98,000. Your GWB Amount for the first Contract Year is \$5,000 ( $\$100,000 \times 5\% = \$5,000$ ), so \$1,000 of your withdrawal is considered an excess withdrawal. The Return of Purchase Payment death benefit first reduces by the GWB Amount to \$95,000 ( $\$100,000 - \$5,000$ ). Then the Return of Purchase Payment death benefit is further reduced for the excess withdrawal to \$93,978 ( $\$95,000 - \$95,000 \times (\$1,000 / \$93,000)$ ).

**Example 3**

Assume your contract has one Annuitant who is age 72 and you made a \$100,000 Purchase Payment on the contract date. The initial Return of Purchase Payment death benefit is \$100,000. You elect to take the greater of your GWB amount or your MRD amount through the Systematic Withdrawal Program. During the first Contract Year, you take out your \$5,000 GWB Amount and your Return of Purchase Payment death benefit goes to \$95,000. In your second Contract Year, your MRD amount is \$5,500, so you take that amount out of your contract. Since you are signed up to take your MRD through the Systematic Withdrawal Program, this withdrawal is not considered an excess withdrawal, and your Return of Purchase Payment death benefit is reduced by the amount of the withdrawal to \$89,500.

## Report of Independent Registered Public Accounting Firm

Board of Directors  
U.S. Bank National Association

We have examined management's assertion, included in the accompanying Report on Assessment of Compliance with Applicable Servicing Criteria Pursuant to Item 1122 of Regulation AB under the Securities Exchange Act of 1934, that U.S. Bank National Association (the "Company") complied with the servicing criteria set forth in Item 1122(d) of the Securities and Exchange Commission's (SEC) Regulation AB for the U.S. Bank Mortgage Backed Master Servicing Platform (the "Platform"), for which the Company provides activities involved in the performance of master servicing functions including securities and certificate administration and custody services, as of and for the year ended December 31, 2019, except for criteria 1122(d)(1)(iii), 1122(d)(4)(iv)-(v), 1122(d)(4)(viii) and 1122(d)(4)(x)-(xiii), which the Company has determined are not applicable to the activities performed by it with respect to the servicing platform covered by this report. Management is responsible for the Company's compliance with those servicing criteria. Our responsibility is to express an opinion on management's assertion about the Company's compliance with the servicing criteria based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the Public Company Accounting Oversight Board (United States) and, accordingly, included examining, on a test basis, evidence about the Company's compliance with the applicable servicing criteria and performing such other procedures as we considered necessary in the circumstances. Our examination included testing of less than all of the individual asset-backed transactions and securities that comprise the Platform, testing of less than all of the servicing activities related to the Platform, and determining whether the Company processed those selected transactions and performed those selected activities in compliance with the servicing criteria. Furthermore, our procedures were limited to the selected transactions and servicing activities performed by the Company during the period covered by this report. Our procedures were not designed to determine whether errors may have occurred either prior to or subsequent to our tests that may have affected the balances or amounts calculated or reported by the Company during the period covered by this report for the selected transactions or any other transactions. Although the Company is responsible for assessing compliance with Item 1122(d)(1)(ii) of Regulation AB, there were no servicing activities performed by the Company as of and for the period ended December 31, 2019, that required this servicing criterion to be complied with. We believe that our examination provides a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Company's compliance with the servicing criteria.

In our opinion, management's assertion that the Company complied with the aforementioned servicing criteria as of and for the year ended December 31, 2019, for the U.S. Bank Mortgage Backed Master Servicing Platform is fairly stated, in all material respects.
